TexFix

Präsentationsrahmen aus Aluminiumprofilen für Textildrucke. Profile in Standardmaße oder laufender Meter. Set enthält: Aluminiumprofil, Verbindungswinkel, Silikonstreifen. Schnelle und einfache Montage.Auf dem Textildruck sollte ein umlaufender Silikonstreifen genäht sein, damit lässt sich das Motiv leicht in die Profile einschieben und spannen.

Aluminium Profile solutions for textile digital printing. Different profiles are available in standard sizes or in linear meters. Easy and quick to assemble. The fabric should be sewn into a "silicon strip" across its profile, which is then inserted in the insertion of the grid remaining tight and perfectly framed for its presentation.

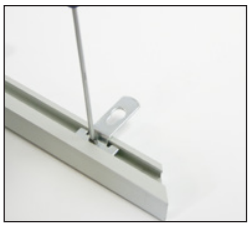

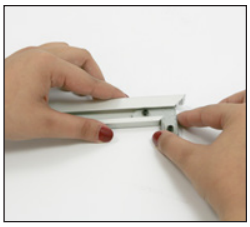

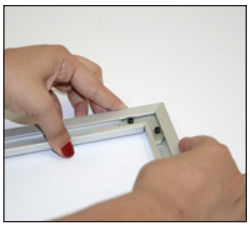

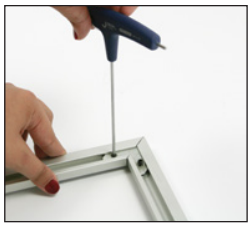

Profil spécial en aluminium pour textile et de montage facile. Les profils sont fournis en formats standard ou au mètre linéaire. Le textile se coud sur une « bande de silicone », qui va s'introduire dans la rainure du profil ce qui permet un visuel parfaitement présenté, tendu et encadré.

Perfil especial em alumínio para impressão digital em têxtil. Montagem fácil e rápida. Os perfis são fornecidos em medidas estandardizadas ou por metro linear, para adequar ao espaço requerido. O tecido deve ser cosido a uma tira de silicone, que posteriormente será introduzida na ranhura do perfil de modo a ficar tenso e perfeitamente colocado.

Soluciones de perfileria especial para tejidos realizados en aluminio listos para su montaje. Los perfiles se suministran en medidas estándar o por metros lineales para adecuar al espacio requerido. El tejido debe ser cosido a una "tira de silicona" en todo su perfil, que posteriormente se introduce en la inserción de la perfileria quedando de esta manera tensada y perfectamente enmarcada y presentada.

Tension Fabric Display

Spannstoff-Aufsteller sind eine günstige Möglichkeit der Display-Systeme. Man verwendet sie indem man den vollständigen Bezug, wie ein Kissen über den Aluminium-Rahmen stülpt. Mit einem Reißverschluss wird der Bezug geschlossen und gespannt. Durch diese bunte Darstellung der Grafik erhalten Sie auf jedem Display einen atemberaubenden Hintergrund. In mehreren Größen erhältlich. Optional Strahler.

Tension Fabric Display Stands are some of the most affordable/economic display systems. They employ a printed graphic that fits over a tubular aluminum frame like a pillow case. There is an industrial strength zipper which closes and provides tension to the graphic system. The full color graphic allows you to place any image on the display to create a stunning graphic backdrop and create a great visual impact. Available in various sizes. Optional Spotlights.

Les Tension Fabric Display sont un des systèmes display le plus accessibles/économiques. Ils s'utilisent avec une impression ajustable qui couvre la totalité de la structure tubulaire en aluminium et qui se ferme par une fermeture à glissière. Disponibles en plusieurs dimensions. Foyers d'éclairage en option.

Os Tension Fabric Display são dos mais económicos sistemas de displays disponíveis. Utiliza-se uma impressão que cobre na sua totalidade a estrutura tubular de alumínio que se fecha com um zipper. Vários tamanhos disponíveis. Focos opcionais.

Los Tension Fabric son unos de los sistemas de display más asequibles/económicos. Emplean una gráfica impresa que se ajusta sobre un marco tubular de aluminio, creando un gran impacto visual. Cuenta con una cremallera la cual cierra la gráfica y aporta tensión al sistema.

15.665	500x124mm	
15.666	500x150mm	
15.667	500x180mm	

Installationsanleitung:

1. Bohren der Löcher entsprechend der Breite des Infoschildes, innerhalb der ovalen Löcher in den Seitenteilen. (Für die Befestigung mittels doppelseitigen Klebeband ist dieser Schritt nicht notwendig).
2. Befestigungsschienen an die Wand schrauben, Abstand entsprechend des Aluminiumprofils. Befestigung mittels doppelseitigen Klebebands. Band auf Rückseite der beiden Befestigungsschienen kleben. Schienen werden wie zuvor beschrieben mit entsprechendem Abstand an der Wand angebracht.
3. Sind die Kunststoffschienen an der Wand befestigt, werden die Aluminiumprofile aufgedrückt.

Install explanation:

1. Make holes in the oval gaps that are in the sides covers. (This step is not whether to fix with double-sided tape).
2. Screw caps to the wall, adjusting the width of the aluminum profile. In the case of double-sided tape is placed on the back of the caps and placed on the wall as the above.
3. Once subjected to the wall, is placed above the aluminum pressing, until it is secured.

Installation:

1. Faire quelques perforations dans les cavités ovales des bouchons latéraux. (Cette étape ne se fait pas si l'on choisi une fixation avec de l'adhésif double face).
2. Visser au mur les bouchons, en les ajustant à la largeur du profil en aluminium. Si on utilise l'adhésif double face, on le place dans la partie arrière des bouchons et après sur le mur, comme dans la description précédente.
3. Une fois les bouchons fixés sur le mur, on les place en haut du profil en aluminium, en faisant pression jusqu'à ce qu'il soit bien maintenu.

Instalação:

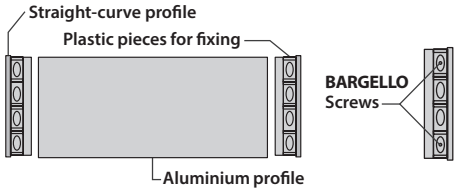

1. Fazer algumas perfurações nas cavidades ovaladas que estão nas tampas laterais. (Este passo não se segue caso se opte por fazer a fixação com fita adesiva dupla).
2. Aparafusar à parede as tampas, ajustando à largura do perfil de alumínio. No caso da fita dupla, coloca-se na parte traseira das tampas e coloca-se na parede, como a descrição anterior.
3. Uma vez fixas as tampas na parede, coloca-se em cima o perfil de alumínio, pressionando até que fique seguro.

Instalación:

1. Realizar unos agujeros en los huecos ovalados que hay en las tapas laterales. (Este paso no se sigue si se va a fijar con cinta de doble cara).
2. Atornillar a la pared las tapas, ajustándose a la anchura del perfil de aluminio. En el caso de la cinta de doble cara se pone en la parte trasera de las tapas y se coloca sobre la pared como lo dicho anteriormente.
3. Una vez sujetas las tapas a la pared, se coloca encima el perfil de aluminio presionando, hasta que quede sujeto.
